

Environmental Policy for Gislaved Folie AB

This policy applies Gislaved Folie AB's operations, which includes development, production and marketing of plastic foils and foil laminates for furniture, wall panels, flooring, as well as specialized industrial foils.

- We shall comply with applicable laws and regulations and work towards continuous environmental improvement and pollution prevention in line with what is technically possible and economically feasible.
- We shall regularly work to reduce the environmental impact concerning raw materials and energy.
- We shall regularly control and evaluate the company's environmental impact and reduce emissions, waste and noise where it is possible.
- In all product- and process development we shall consider the total environmental impact of the proposed measures and strive to use lenient materials and simplify the possibility for waste recovery.
- We shall maintain the environmental consciousness in the company through employee education.
- We shall put pressure on suppliers and entrepreneurs so they can cooperate in realizing the Environmental Policy.
- We shall have an open attitude towards customers, suppliers and authorities in environmental issues.
- The Environmental Policy shall be realized by using an overall Environmental Management System.
